

G. G. Coote Explains Action In Fed. House**States He Did Not Seek To Prevent Anti Dumping Regulations Respecting Coal**

Nanton, Nov. 8, 1930

"My attention has been drawn to an editorial which appeared in the Calgary Herald some time ago, before my return to Alberta, and headed—'Coote adopts peculiar stand.' Reference is made to my vote in support of a motion to give six months hoist to Bill No. 3, a measure to amend the Customs Act, and the implication is that I was seeking to prevent the application of anti-dumping regulations in regard to coal.

The bill to which reference is made gives the Governor-in-Council power to authorize the minister of national revenue to fix the value for duty purposes of any goods imported into Canada. I objected to this bill on the ground that it placed very great and arbitrary powers in the hands of the minister, when to my mind, he had not shown to the Commons any need for such drastic legislation. Further, the fixing of value for duty purposes, was in reality a form of taxation, and taxing powers in the past have always been jealously guarded by the House of Commons.

The governor-in-council and the minister have had the power to fix the value for duty purposes of all natural products imported into Canada since the year 1922. Coal is a natural product, so it is quite clear that the minister has had this power with regard to coal for the last eight years; but if half the reports we hear are true, it has not stopped the dumping of coal into Canada.

I have repeatedly urged the Commissioner of Customs and the Minister to enforce the anti dumping regulations in regard to coal which it was alleged had been sold in Manitoba at dump prices, and at an appropriate time will be glad to discuss this question with any of my constituents in the Pass and produce the correspondence in connection with the matter.

The only real difficulty I have heard of that was encountered by the customs officials in their endeavor to prevent dumping of coal (insofar as the law was concerned) was in connection with certain large coal companies in the United States that maintained their own selling agencies in Canada. It is alleged that although the coal might be sold to their Canadian agency at a proper price, it was in some cases sold by the Canadian agency to a purchaser in Canada at a price below the duty paid value.

Section 6 of Bill No. 4, passed at the last session, gives authority for the levying of dumping duty in such a case.

It would appear that if the law as it now stands is enforced, as I hope it will be, there is very little

Knights of Pythias Honor Departing Member

William Griffith, for 23 years a miner at the International, has left for Lulu Island, B.C., where he will engage in fruit and poultry ranching with a former Colemanite, Thos. Muir. Coming originally from Wales, he has been continuously employed by the International, except for time spent on visits to his homeland.

In honor of his departure, Sentinel Lodge, K. of P., held a social evening on Monday in the hall, when a presentation was made of a tobacco pouch and silver mounted pipe, D. Gillespie, chancellor, making the address.

Songs were given by A. Phillips, Cyril Hibbert, W. H. Hayson and a dance by George Harris. Mr. Griffith was widely known throughout the Pass, and his immediate relatives here are Mrs. W. H. Hayson and Mrs. Lewis Jones. Mr. Griffith left on Tuesday morning via the Kettle Valley line followed by the good wishes of a host of friends.

HOSPITAL NOTES

Mrs. Rock, formerly of Olds hospital staff, is now on the staff here.

Mrs. Annie Kahout is making progress and hopes to soon be out of hospital.

Mrs. Porteous of Hillcrest is steadily progressing.

Mrs. C. A. Devine is recovering nicely from her recent operation.

Onnie Hill is again a patient for further treatment, and R. Mitchell is again, having had to undergo further skin grafting to the severe burns he suffered some months ago.

ST. ALBAN'S CHURCH, COLEMAN

Next Sunday is Advent Sunday, the services will be:

11 a.m. Holy Communion and Sermon.

12:30 p.m. Sunday School.

4 p.m. Adult Bible Class.

All church workers are specially asked to make their communion, being the festival of one of the greatest Christian workers, St. Andrew.

The A. Y. P. A. will meet in the Parish hall on Friday at 8 p.m. A good programme of music has been arranged and all members are cordially invited. Mr. T. Elgar Roberts will give a paper on "Great Classical Composers and Their Works."

Enjoyable Tennis Club Dance

The Grand Union hotel dining room and rotunda were gaily decorated for the annual dance held last Friday evening, which proved very enjoyable. Fraser's orchestra maintained a lively program till 2:30 a.m. and members and friends, were unanimous in their praise of the admirable manner in which arrangements were carried out.

Mr. William Bell kindly loaned the spacious rooms of the hotel for the dance, which courtesy is much appreciated by the club committee, also the work of those who helped in arranging the decorations.

Cranbrook is reported to have 250 registered unemployed, and a relief fund is being disbursed at the rate of \$2,000 per month.

chance of coal being dumped into Canada.

I trust I have made it clear that I was not seeking by my vote or otherwise to prevent the application of anti-dumping regulations in respect to coal.

G. G. COOTE

"His Majesty's Choir Children" to Sing

Canada is honored—and delighted—by the visit to the Dominion of the children of His Majesty's Saviour Chapel Choir, composed of twelve boy sopranos, the pick of England's best youthful singers, all of them under sixteen years of age. It is the first occasion in the 700-year history of the Chapel that a King of England has given permission to the children of the choir to leave Great Britain. They will take part in the Christmas Festival to be held this year at Lucerne-in-Quebec, and they will also give a recital at the Royal York Hotel, Toronto, December 23. Those who associate the choir with strictly church music will get a surprise, for programmes to be rendered by the boys include not only this type of music but also some of the best known of secular songs, glees and part songs presented in solo, trio or choral form. When they sing church music they are garbed in scarlet and gold costumes surmounted by the quaint Tudor ruff, exactly as they appear upon festival occasions in London. They come to Canada as representatives of an institution which typifies the best traditions of choral singing in a country where choral singing is unexcelled in any part of the world.

Local and General News Items

R. F. Barnes and A. M. Morris were visitors to Calgary during the week.

Antrobus' Shoe Store has some sub-standard specials in the famous Woods Lavender Line.

Forie Celli is spending a holiday in Vancouver visiting his sister. Mrs. T. Marini, and his brother Corrie, who is attending school there.

Cranbrook will hold a musical festival in April, for which the adjudicator will be F. K. Nauding, organist and choirmaster of Grace Presbyterian church, Calgary.

Consolidated Mining & Smelting Co. Ltd. employ about 30 men at their phosphate rock mine a short distance west of Crow's Nest. The rock is shipped to Trail.

Attending the hotelmen's convention in Calgary are J. A. McDonald of the Empire hotel and A. E. Guerdar of the Coleman hotel.

Dr. Lillie's father passed away last Friday at Creston, B.C., and the funeral was held in Calgary on Tuesday, burial being in Burnside cemetery. He was 73 years of age, and left Blairmore in 1922 to live at Creston. He was well known to people of the Pass towns.

Mrs. W. G. Fraser of Sixth street received the sad news this week of the death of her brother, Mr. Adam Wilson, who passed away at Springhill, Nova Scotia. He had passed the allotted span of three score and ten years, but during his visit of several months here during the summer he appeared hale and hearty and would walk down town daily. His death came as a surprise to many who had met him here. Mrs. Fraser has the sympathy of many friends in town in her bereavement.

Coleman Players Are Staging Three Plays

Coleman Players will offer a full evening's entertainment in the K. of P. hall on Mon. [Dec. 8]. Departing from their usual custom the club is presenting three short plays by well-known writers.

Included in the castes are those popular players Sidney C. Short, R. F. Barnes, Miss Edith Hayson and Miss Hilda Clifford, whose work has met with high favor. Among the newest members are Miss K. Milley, Miss Olga Hole, Fred Guerdar, M. W. Cooke, A. S. McIntock and F. Cressgan. In the choice of plays and players every care has been taken to maintain the high standard attained in past performances.

In nine years Coleman players have staged many productions in aid of various community interests. It has been their aim to make each production better than the last. This has been attained in the past and without doubt the public will acknowledge an equal degree of success in this their latest venture.

The Salvation Army

Sunday, 11 a.m. Holiness Meeting 2 p.m. Directory Class for the young people. 2:30 p.m. Company Meeting. 7 p.m. Salvation Meeting.

Officers in charge: Wm. Slous, Capt., and J. Wiseman, Lieut.

Prize-winners at the wheat drive and dance in the K. of P. hall on Saturday were Mrs. J. Derbyshire, Mrs. A. E. Guerdar, B. Garratt and Joe Davis.

Theatre Notes

"Around the Corner" is a rip roaring comedy with true life characterizations, hilarious situations, plenty of romance and riotous climaxes—a George Sidney Charlie Murray masterpiece. Showing at the Palace on Monday, Tuesday and Wednesday.

Ex-Convict Aids Film-Makers

As a double assurance of atmosphere and routine authenticity in prison scenes for William Powell's new starring picture, "Shadow of the Law," which will show at the Palace theatre next week, a former convict was employed as technical advisor. Since serving time in Leavenworth and Alcatraz, this man has established himself as a useful citizen whose chief aim in life is to warn others against breaking the law.

(Continued on Page Eight)

Capt. W. Beebe Honored by Masonic Brethren**Well-Known Citizen of Pass Town Recipient of Presentation by Lodge Members**

Sixty years a member of the Masonic order is probably a record in Alberta, and this distinction belongs to Captain W. A. Beebe, a citizen of Blairmore since its inception and who has occupied positions on the executive of every representative organization and civic body of the town during his residence there.

After the conclusion of the business of Rocky Mountain lodge, A. F. & A. M. on Monday evening, at a banquet served in the lodge room, (which by the way was indeed creditable to the commissariat department under the capable charge of Brothers Robert Gray and Rod McLeod) following the customary toasts to the King and the Grand Lodge of Alberta, a toast to Capt. Beebe was proposed by Wm. Bro. Harper, master of the lodge, in which it was pointed out that on Nov. 23 he completed his 60th year of membership.

His mother lodge is in Bay City, Mich., and on retiring from marine service, he travelled extensively and spent some time in Yukon and the famous Klondike region of the gold rush days. He was one of the earliest citizens of Blairmore and knows more of the details of town settlement and early organization than any other man living there. A charter member of Rocky Mountain lodge, he was also its first treasurer, and has held the office since. It was interesting to learn that he has never missed a meeting, is always on time and as the worshipful master remarked, his example is a shining light to those who are hot in the habit of attending promptly to their lodge duties.

The presentation of a set of gold cuff links was made by Rt. Wor. Bro. G. Cruickshank, the lodge singing "For He's a Jolly Good Fellow" and winding up with three cheers and a "tiger."

In proposing the toast to the Grand Lodge Rt. Wor. Bro. Pinkney, D.D.G.M., referred to the fact that there was present a visitor who had been a district deputy grand master in Alberta before the provincial grand lodge was formed, when the province was under the registry of Manitoba grand lodge. This was Rt. Wor. Bro. O. E. S. Whiteside, who in 1901 was the district deputy of one of the two districts then existing, and later

Unemployment Relief Policies

Unemployment not only casts a sinister shadow over the world today, but the substance of the thing has hundreds of thousands, even millions, of men, women and children in its grip. Admittedly the situation is a serious one, first, because of the actual suffering entailed thereby, but also because it is causing men to "see red," as the saying is, and lose faith in all established and orderly methods of government, society and business. The tendency is to repudiate economic truths, and to try experiments with almost any half-brained proposal that may be advanced. Here lies the real danger for the future, because many of the suggested remedies would result in a state of affairs far worse, and cause more suffering, than the condition they sought to improve and cure.

One suggested temporary remedy for present unemployment that undoubtedly finds support in many quarters is the substitution of handwork, manual labor, for machinery in prosecuting relief works. For example, it is reported that one large United States city is developing a program of winter work that will substitute pick-and-shovel brigades for machines, the object being, of course, to give work to a larger number of men. The same suggestion is being advanced in connection with municipal relief works throughout Canada.

The question is: Should we deliberately abandon our labor-saving devices and revert to the painfully slow methods of yesterday in order to provide jobs for the unemployed? Is it wise to do so, and, in the long run, are the unemployed benefited thereby? The subject deserves close study.

Without doubt, a good deal of work can be manufactured by substituting primitive manual methods for more efficient machine-processes, remarks the New York Journal of Commerce. Indeed, by some systematic elimination of our modern labor-saving devices, it goes on, we could speedily reduce any modern industrialized community to a condition which would require the full-time effort of every able-bodied person to prevent wholesale starvation and death from exposure. But, without carrying the policy to any such lengths, is the suggestion good in any way?

In one of our prairie provinces where much road work is being carried on as a means of providing employment, decision was reached to build a certain road without use of machinery and solely by horses and manual labor. Objection was raised by some people that by using machinery for certain phases of the work, a greater mileage of good road could be constructed for the same money while giving employment to just as many men because of the greater mileage involved. This view was rejected, no machinery was used, and the work proceeded. A total of five miles of graded road was the result. "Now it is realized that with the same number of men given work, practically the same expenditure of money, and the use of a certain amount of machinery, three times that mileage could have been constructed. The farmers of the district who were given relief work on that road would have benefited more from fifteen rather than five miles of good road, while in the years to come they must pay their share of the taxation necessitated by this relief expenditure. They gained nothing temporarily, and will lose in the long run.

Fifty men digging a trench for a sewer or other pipe line with pick and shovel will accomplish just so much in a day, but the same fifty men working in conjunction with a trench-digging machine will accomplish several times as much, and with little more expense. Or fifty men cleaning snow off sidewalks with shovels will only do a fraction of the work that the same fifty men following after snow-ploughs will do, yet the same number of men will be given work and practically the same expenditure of public funds be required.

There should be no hasty assumption that the elimination of machinery in carrying out unemployment relief works is wise, or that more work for the unemployed can be thus provided. It does mean, however, that less will be accomplished for the money expended, and for this economic loss everybody, including those at present unemployed, will have to pay through taxation in the years to come.

Other suggested remedies have more to commend them, as, for example, the proposal in Great Britain and Germany to raise the compulsory school attendance age by one year, thus keeping some hundreds of thousands of children in school for a longer period instead of having them forced into employment replacing others now at work, or merely added to the ranks of the idle and out-of-work. This is something like a policy, benefiting the coming generation of workers, and raising the whole educational standard of the nation.

So, too, there is much to be said in favor of the suggestion that the present six-day or five and a half-day work week be reduced to a five-day work week, or that the present eight-hour day be reduced to a seven-hour or even a six-hour day. As the head of one of the greatest industrial corporations in the world today recently pointed out, the greater the amount of leisure time enjoyed by the workers of the world, the larger will be their demand for the things necessary to the enjoyment of those leisure hours, thus creating a greater demand than ever for the production of the things they require. Thus would more men be employed, more goods produced and purchased, a higher, rather than a lower, standard of living created.

Not Good Publicity

Stunt Flying Does Not Help Aviation In Any Way

In the Peckham, N.J., airport on a recent Sunday, 5,000 people were watching the marvels of skill in flight when an airplane driven by veteran Alden H. Russell, was into a tail spin and crashed, injuring Russell seriously and his one passenger fatally. More than these two men were endangered; the crash came within 300 feet of the massed spectators. In Toronto at about the same time a pilot and two women passengers were burned to death in a low crash after stunting.

The friends of commercial aviation in view of the number of such fatalities, may well ask themselves what kind of publicity will most benefit their young industry; the plaudits of the crowd gathered to risk their own lives in seeing reckless pilots risk theirs, or the story of the really remarkable advance that is being made in aviation with a purpose. For, almost unnoticed along with all this dangerous stunting the carrying of air mails and passengers goes on with comparative safety, which should be if attention were not constantly diverted from it by such accidents in exhibitions, most encouraging.

It ought not to take a major accident with a hundred people killed by a plane out of control to open the eyes of aviation authorities to the necessity of curbing the practice of recklessly showing off what wonderful things can be done in the air—with luck, which does not always attend the venture.

A Mother's Anxiety

About Her Delicate Daughter

"She seems to be fading away," said an anxious mother recently about her daughter. Thousands of mothers could say the same thing. Their daughters endure a trying life of robbing of all vitality and brightness. Their cheeks are pale; their eyes dull; their step languid and their movement lists of shattered health. If neglected their suffering grows more acute till decline sets in.

If your daughter complains of weakness; pains in the side; weakness; headache or lack of appetite is uncertain and her spirits low—anaemia is the cause. She needs new blood. Give her Dr. Williams' Pink Pills at once for these pills actually renew and enrich the blood. They make sickly girls well and happy; improve the appetite and bring back all the charm and brightness of perfect health.

Dr. Williams' Pink Pills are sold by all dealers in medicine or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Pioneer Passes

Death Of One Of The First White Women Born In Western Canada

The death has taken place of Mrs. Elizabeth Adelaide Mary McKinnon, 77, one of the first white women born in western Canada. A native of Fort Garry, daughter of Philip MacQuire, of the Hudson's Bay Company, she went through the Indian rebellion at Fort Garry, and the 1885 Louis Riel rising, when she was living at Qu'Appelle. She was the widow of John McKinnon, contractor, Winnipeg.

A resident of British Columbia for 30 years, she was a pioneer of Prince Rupert and had lived here for 12 years.

Cause Of Asthma. No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from grain and various other irritants may set up a trouble impossible to eradicate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

Germany Holds Strange Fair

One of the strangest fairs in the world is to be held at Pirmasheim, Germany. It is an insect fair for the collectors from all parts of the world gather to display their rare butterflies, moths, beetles, grasshoppers, flies, crickets and other insects. Huge sums of money are exchanged in sales of these insects between various collectors.

Peevish, pale, restless, and sickly children are the condition of women Mother Graves' Extremator will relieve them and restore health.

Canada and Empire Reforestation Canada is yearly playing a bigger part in Empire reforestation. Fifty-three per cent. of the tree seed exported has gone to Great Britain, forty per cent. to New Zealand, and the remainder to Australia, Ireland, and other parts of the Empire. During the past ten years the British Forestry Commission has planted 140,000 acres of woodlands, the greater part of the seed used coming from Canada.

Marvels Yet To Come

Inventor Responsible For Train Telephone Has Great Vision For Future

Forecasting the future always is an interesting occupation. While in this respect the chief interest of the public is in the weather for tomorrow, other unusual prognostications attract attention. An article in MacLean's Magazine dealing with the genius of Mr. John C. Burkholder, who is responsible for the "train telephone" in operation on the Canadian National Railways, sets forth other ideas in the mind of this inventor.

Among the marvels that are to come, he sees the time when newspapers may publish in different cities by transmitting the whole edition, page by page, illustrations and all, by telegraph, with only a matter of minutes until the presses are running. City streets are to be three-decked, and moving sidewalks will do away with street cars. Television and radio will bring from London and New York the greatest stage presentation and "the wheel of fortune" may be turned by the power contained in a glass of water and its plants lighted by rays captured from the sun.

Perhaps, a few decades ago Belamy had such a vision and a great deal of it came true. The world is not slowing down, and possibly the most vivid imagination cannot foresee the marvels that are yet to come.

A Deadly New Rifle

Works Like Machine Gun Even Under Severe Test

The possibility of making every infantryman a machine gunner was demonstrated at Bisley in the presence of representatives of the War Office, the Royal Air Force and the Admiralty, when a series of tests were made of the Vickers-Berthier land service rifle and the Persher self-loading rifle.

The machine rifle was subjected to a severe ordeal. It was buried deep in the sandy gull. Then it was resurrected, and in the hands of a capable demonstrator it ticked off single shots, and afterwards spurted out lead at the rate of 450 rounds a minute.

An even more severe test was to submerge the machine rifle in a tank of mud and water, and test its consistency. It survived, with its mechanical efficiency and accuracy unimpaired. The weapon was taken into a heap of its component parts in 10 seconds. It was quickly reassembled and ready for action. One thousand rounds rapidly were fired on the two-year range, that being the average period of its burst of fire.

Western Canada Sugar Production

About 24,000,000 pounds of sugar will be produced this year from sugar beets grown in Southern Alberta. About 14,000 acres of beets were under crop this year. The centre of the industry is at Raymond.

Has it ever occurred to you that there is no last number? The process of counting cannot conceivably be terminated, Dr. Dantzig points out. Every number has a successor. There is an infinity of numbers.

Results On the Farm - Every farm and stock raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses as cattle affected by colic it far surpasses anything that can be administered.

"I wish you could pay a little attention to what I am saying," roared the exasperated barstiller to a stubborn witness. "Well," was the reply, "I'm paying as little as I can."

Chapped Skin

Wind, snow and sleet bruise unprotected skin surfaces. Minard's heals the raw skin tissues and affords full protection.

Drug Ring Smashed

United States Federal Agents Make Thirty Arrests

Thirty arrests in seven cities, and seizure of drugs valued at \$25,000, were reported by United States federal officers who for six weeks have worked under cover in an effort to smash what they described as an "international drug ring—one of the biggest and most powerful in the United States."

The secret government "agents" caught the arrests in Syracuse, Buffalo, N.Y., Utica, Albany, Troy and Schenectady. The coup was said to have been engineered by narcotic officials at Washington and New York.

Three were taken into custody in Syracuse Saturday night, Nov. 1, after undercover men, who had gained the confidence of several of the men said by them to be members of the ring, were lured to Syracuse with invitations to a "wild party."

Instructors For Poultry Breeders

Course Is Announced For Young Breeders Of Poultry By Calgary Poultry Association

A course of instruction for young poultry breeders is announced by Dr. D. S. Macnab, president of the Calgary Poultry Association, extending from November to February 6th. A routine poultry show, when each student will be asked to judge a section of the show, after which competent judges will comment on the awards, will conclude the course.

Persian Balm is unrivalled for promoting feminine loveliness. Tones and rejuvenates the skin. Makes it exquisitely soft-textured. Makes hair flawlessly white. Especially recommended to soothe and relieve roughness or chafing caused by weather conditions. Indispensable to every dainty woman. Cool and refreshing. Delicately fragrant. Magical in results. Never leaves a vestige of stickiness. Persian Balm is the one toilet requisite for the woman who cares for charm and elegance.

Silicate of Soda Glue

In setting up paper boxes, a mineral glue—silicate of soda—is of great utility, and, in connection with this, a number of experiments are being carried out by the Forest Products Laboratories, Department of the Interior, Ottawa.

Minard's Liniment refreshes the scalp.

Meat Consumption In Canada The per capita consumption of meats in Canada last year was 676,900,352 pounds or 69.99 pounds per capita; pork, 798,638,774 pounds or 81.52 pounds per capita; mutton and lamb, 70,611,238 pounds, or 7.20 pounds per capita.

Banish pain with Minard's Liniment. More than 9,000 elephants work in Siam at the task of transporting logs from forest to river.

PLEASURE

The tingling taste of fresh mints leaves a real treat for your sweet tooth.

New Railway Construction

C.P.R. To Opennew Work At Once On Saskatchewan Branch Lines

Immediate work on a hundred miles of new rail construction in Saskatchewan is foreshadowed by D. C. Coleman, vice-president of western lines, Canadian Pacific Railway, in announcing the award of four grading contracts which form a portion of the company's advanced construction programme recently referred to by E. W. Beatty, K.C., chairman and president of the company. The contracts are for the completion of the line from Nipawin to Henribourg, 20 miles; Rosemont to Gunnworth, 20 miles; Medstead to Meadow Lake, 25 miles, and from Hamlin, northeastern, 25 miles.

Two women are training as air pilots to every three men in England.

Heart and Nerves So Bad

Was Unable To Sleep For Hours

Miss Theresa M. Ravary, Gallatin, Ont., writes: "I was troubled, for almost a year, with my heart and nerves, especially on retiring at night when I would be unable to sleep for hours. I was easily fatigued, and became very excitable and irritable. A friend recommended Milburn's Heart and Nerve Pills and after taking them for a few weeks I could enjoy a good night's rest, and rapidly regained my former state of health."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Cut Down Food Wastage

HUNTER-MARTIN & CO., REGINA, SASK.

CARRY-OVER OF WHEAT FOR 1931 MAY BE LESS

Ottawa, Ont.—Canada had a surplus of 313,000,000 bushels of wheat on Oct. 31, according to an estimate in the review of wheat conditions issued by the Dominion Bureau of Statistics. If the present sales policy is continued, the carry-over at the end of the present season (July 31, 1931), will be less than last July. The review states:

"The carry-over of wheat in Canada at July 31, 1930, was 112,000,000 bushels and the total 1930 wheat crop is now estimated at 396,000,000 bushels. Allowing 110,000,000 bushels for seed, home consumption and wheat for export, the carry-over at the end of the 1930 season would be 186,000,000 bushels. On the basis of the official estimate of carry-over as well as a surplus of about 313,000,000 bushels existed at October 31, and it is seen that a continuation of present sales policy will result in a reduced carry-over in 1931. A great deal depends upon economic conditions in the United Kingdom and Europe. The reduction of Northern American supplies to normal before the 1931-32 season will be an important factor."

The 1931-32 season will be an important factor in future price levels. The fall movement of grain from the head of the lakes assures adequate stocks in ready positions for winter export. The fortunate distribution of the Canadian wheat crop according to quality will also be a helpful factor.

The high quality wheat for eastern shipment and the low quality wheat suitable for the Orient are in the most favorable situations for export movement, the former being centred in Manitoba and Southern Saskatchewan, while the latter covers the northern and central regions of Alberta and Western Saskatchewan."

"After a black period during most of October, daily deliveries of wheat began to exceed those of the same date last year on October 25, and since that date the cumulative total for the 1930 crop has continually widened the increase over the 1929 total."

In the crop season up to November 11, the total wheat marketed in 1930 was 196,868,000 bushels compared to 180,000,000 bushels in 1929. The provisional estimate of the 1930 wheat crop of the west was made on November 13, and forecasted a crop of 374,000,000 bushels. Of this amount, about 42,000,000 bushels will be retained for seed in the west and at least 15,000,000 bushels will be unmerchantable or lost in cleaning on the farms.

Estimates will be made later of the amount fed on farms and custom milled by country mills for consumption on western farms. On the basis of the provisional estimate, with reasonable deductions for wild animals, probably 110-115 million bushels of wheat were still held by western farmers on November 11th.

No Change Likely

Tariff At Churchill To Be Same As Other Canadian Ports

Ottawa, Ont.—It may be taken for granted that the present government is not contemplating a tariff schedule on goods coming into Canada at Churchill that would be different from the tariff on goods coming at any other Canadian port. This was the opinion expressed in government circles here in reference to the proposal by Hon. R. A. Hoey, acting premier of Manitoba, that Churchill be made a free port of entry for British goods coming to Canada.

A number of ports in Europe are known as "free ports." Goods may be shipped into storage in such ports without any customs restrictions and then sold. However, such imports have to meet the tariffs of the countries to which they are ultimately consigned.

Mexico In Market For Wheat
Chicago.—Reports were received at the Chicago Board of Trade from Mexico City to the effect that the Mexican Government had arranged for the purchase of 200,000 bushels of Canadian wheat from the Canadian pool.

Might Help Unemployment
London, England.—The Labor Government is considering a "back to the farm" solution for the nation's unemployment problem. It is working on a bill to provide grain plots and small farms for jobless men.

To Stabilize Wheat Prices

Advocate Measure To Restore Confidence and Ameliorate Western Conditions

Portage la Prairie, Man.—Organized agriculture of the prairies stands four square back of the premier's pilgrimage to the east to seek Dominion government aid for the wheat crop. In annual convention here, United Farmers of Manitoba gave their endorsement to the premier's mission to gain Dominion assistance in restoring confidence and in ameliorating conditions in the west.

Already United Farmers of Alberta and United Farmers of Canada, Saskatchewan section, have taken a stand in favor of fixed prices for wheat by means of Dominion intervention, admittedly the object of the prairie premier's journey to Ottawa. The Manitoba body, however, erased all mention of price fixing from the resolution which it approved unanimously.

Though Manitoba farmers adopted no policy on "pegged" wheat prices, as advocated by George H. Williams, president of the Saskatchewan body, they decided to send a representative to the interprovincial conference in Saskatoon. At this meeting, the matter of stabilized grain prices by government intervention will be considered.

The Manitoba delegation will be bound to no specific move with regard to steps to be taken at the meeting.

In the course of open debate on the question, Mr. Williams stated that United Farmers of Ontario and the Canadian Council of Agriculture would be represented at the meeting, as well as prairie farm body delegates. The Manitoba convention approved the action of its directors in deciding to send a delegation to the Saskatoon parley, scheduled November 26 to 28.

Exhibit Of Choicest Products

Varied Display Seen At Royal Winter Fair In Toronto

Toronto, Ont.—The choicest of Canada's agricultural products and the bluebloods of her cattle, domestic animals and poultry were on display here, when, without any ceremony or speech-making, the gates of the Royal Winter Fair were opened to the public. Housed in the buildings at the Canadian National Exhibition grounds, hundreds of horses, livestock, poultry, foxes, and cats and dogs, seeking glory in their respective classes, while in other buildings were aisles and aisles of fruit, flowers, dairy products, seed grains—the best of Manitoba and the United States has to offer.

Perhaps the most varied show was the great display of apples, entered for competition by farmers and associations from Prince Edward Island to British Columbia. The display consisted of boxes of apples packed for shipment and placed one box beside the other, 10 crates high and 25 crates wide, forming a great glistering sea of red and green.

The show was officially opened by Sir Robert Borden, when the former premier addressed the throng in the huge Coliseum.

Wheat Acreage Should Not Be Reduced

Would Be Economic Fallacy In Opinion Of H. S. Fry

Toronto, Ont.—Reduction of acreage seeded to wheat by farmers of western Canada in an effort to cut down production and thus limit the exportable surplus of stocks, would be an economic fallacy, in the opinion of Harold S. Fry, of Regina, chairman of the general public committee of the World's Grain Exchange and Conference, which will be held in Saskatchewan's capital in 1932. Mr. Fry is also publicity director of the Saskatchewan Wheat Pool.

According to Mr. Fry, Canada produces in largest quantities the world's best hard spring wheat and ranks as the world's greatest exporter of wheat. He held it paramount that Canada maintain this supremacy. Either by finding new markets for wheat, lessening the cost of production, finding new uses for wheat—or a combination of all three.

Advocates Free Port

Portage la Prairie, Man.—Proposal that Churchill, the West's sea harbor on Hudson Bay, be declared a free port of entry for British goods, was made by Hon. R. A. Hoey, acting premier of Manitoba, at the annual convention of the United Farmers of Manitoba. He considered that such a move would tend materially towards the establishment of the West's agriculture on a permanently profitable basis.

Rapid Telegraphy

Telegraph Transmission At A Speed Of 9,120 Words A Minute

London, Ont.—Addressing the London branch of the Engineering Institute of Canada here, R. B. Steele, assistant chief engineer of the Canadian National Telegraphs, announced telegraph transmission at the speed of 9,120 words a minute would be made possible shortly by further extension of the carrier current system. In 1927, Mr. Steele said, the C.N. Telegraph increased by provincial and inter current the capacity of a pair of wires from 400 words a minute to 4,120 words a minute for a single pair of wires. Further development of the system now made possible the transmission of 9,120 words a minute for a single pair of wires.

MORE FUNDS ARE SET ASIDE FOR RELIEF PURPOSES

Ottawa, Ont.—A new list of expenditures approved by Hon. Gideon Robertson, Minister of Labor, brings the amounts of joint total expenditures of Dominion, provincial and municipal governments, for unemployment relief and relief works, up to \$46,660,705. Additional sums approved for Nova Scotia and Manitoba augmented the previous total by \$1,038,755.43, of which the eastern province's share is \$19,206.43, and that of Manitoba \$122,550.

The grand total is now distributed as follows: Nova Scotia, \$1,023,305; Prince Edward Island, \$144,000; New Brunswick, \$469,300; Quebec, \$3,501,800; Ontario, \$10,735,103; Manitoba, \$563,740; Saskatchewan, \$1,476,941; Alberta, \$2,667,536; British Columbia, \$1,325,482; Yukon, \$5,000; Canadian Pacific Railway, \$1,514,900; Canadian National Railway, \$11,785,498; grade crossing fund, \$50,000.

The program of construction which will be engaged in by the Canadian National Railways, under the arrangement whereby interest on necessary borrowings is paid by the government, was announced here recently. The arrangement is made so as to speed up construction, etc., in order to give employment as soon as possible. The total estimated amount for the various projects, according to the program, is \$9,948,653, of which \$6,654,745 constitutes the proportion to be paid by the railway. The remaining sum will be met out of the grade crossing fund and other sources.

This list of works includes: Freight storage shed, Port William, Ont., total cost \$132,000; railway proportion, \$132,000. Subway, Saskatoon, total cost \$300,000; railway proportion, \$40,000. Diversion railway line, Westford, Ont., total cost \$550,000; railway proportion, \$550,000.

Relay 160 miles main line with new heavier rails at a total cost of \$1,103,054, to be borne by the railway. Lay track on approximately 143 miles new branch lines, total cost of the railway, \$1,540,000.

ATTENDS V.C. DINNER

Col. C. W. Peck of Prince Rupert, B.C., only member of parliament to hold the Victoria Cross, who was one of the many holders of this medal to attend the V.C. dinner held November 8, in Toronto, Ont.

No Interference

Sir Henry Thornton Says C.N.R. Has No Complaint Regarding Treatment By Present Government

Ottawa, Ont.—Interviewed here Sir Henry Thornton, chairman and president of the Canadian National Railway, said:

"I have no particular comment to make upon recent rumors and reports relating to the Canadian National Railways other than to say that the administration has not the slightest complaint regarding its treatment by the present government and has no apprehensions with respect to the future. We have good steady jobs minding our own business and trying to operate the railway. There does not seem to be any immediate reason for undue excitement."

Sir Henry spent some time in conference with Hon. Dr. R. J. Manion, Minister of Railways, who returned this week after a tour of the Maritimes. Only routine matters were under discussion, it was stated afterwards.

Decrease In Fall Grain

Interesting Report Issued By Dominion Bureau Of Statistics

Ottawa, Ont.—The area sown to fall wheat in Canada for the season 1931-32 of Oct. 31, 1930, is estimated at 894,000 acres in a report issued by the Dominion Bureau of Statistics. This represents a decrease of 148,000 acres, when compared with the total of 1,042,000 acres sown last year.

The condition of fall wheat on October 31, is reported as 96 per cent. of the ten-year average, against 88 per cent. on the same date in 1929. The report also deals with fall rye, showing that 944,000 acres have been sown to this grain. A decrease of 19 per cent. from the total of 1,116,000 acres sown in 1929. The condition of all rye was reported on October 31, as 93 per cent. of the ten-year average. The condition on the same date last year, was 90 per cent.

Soviets Establish Child Clinics
Moscow, Russia.—Special clinics for crippled children are being established by the Soviet Union. The health department estimates from incomplete data that there are 750,000 crippled children in the nation.

ROYALTY OF SPAIN

Photograph above shows Queen of Spain and her daughters, Infanta Beatrice and Maria Christina, leaving Westminster Palace, London, England, upon her 43rd birthday.

Independence For India

Voice Of Islam Heard At Round Table Conference In London

London, England.—India's round-table conference heard a voice from Islam in a demand for complete independence.

"I do not come to ask for Dominion status," exclaimed Muhammad Ali, one of the famous All India Brothers and a leader of the all-India Moslem League. "I do not believe in the attainment of Dominion status. The one thing to which I am committed is complete independence."

The Hindus and the Moslems alike challenged the Conservative view, expressed by Lord Peel, when the former secretary of state for India declared Dominion status had not been promised as an immediate gift, but had merely been pointed to as a goal by the present Viceroy of India, Lord Irwin.

"I want to go back to my own country," Muhammad Ali declared, "only if I can go back with the substance of freedom in my hand. Otherwise I will not go back to the slave country. You have to give me a grave here."

"We will be satisfied with nothing less than full responsible government," insisted Dr. B. S. Moonje, the Hindu Mahasabha, or protection society.

A NEW FARM POLICY PROPOSED BY GOVERNMENT

Toronto, Ont.—A Dominion agricultural policy is proclaimed by Hon. Robert Weir, Dominion Minister of Agriculture. On the occasion of the opening of the Royal Winter Fair, the minister enunciated important policies, adopted after three days' deliberation of the provincial ministers of agriculture and to be known as the "national agricultural policy."

Declaring that at the present period of depression new and drastic steps in the right direction should be taken, and insisting on the necessity of co-operation throughout agricultural Canada, the minister introduced a series of measures designed to remedy the situation and bolster "Canada's chief industry." They are:

1. The introduction of better blood in herds.
2. The scientific use of home grown products for herd feeding purposes.
3. Careful study of the science of marketing.
4. The prevention of implantation and spread of poultry diseases.

One of his suggestions and reiterated policies, said Mr. Weir, was to find some machinery by which every farmer throughout the country could be made aware of the changes in agricultural methods and of the improvement in farming conditions. This he had discovered, he said, as the result of the conference with provincial agricultural leaders.

"It has been agreed that the provincial departments of agriculture and all the machinery at their service, will transmit and interpret to the farmers of Canada every possible advance or policy which the Dominion Department of Agriculture, after consideration and consultation, will consider beneficial to the farming population as a whole. This, of course, with the least possible delay and at the lowest cost."

Decrease in the cost of production and scientific production—that is the production of market requirements—were two fundamental principles that had not been lost sight of.

The minister made a brief analysis of his four major propositions. Considering the difficulty the average farmer experiences in procuring a first class sire, whereby he might improve the blood of his cattle and the general usefulness of his stock, Mr. Weir undertook to supply free of cost to any group of energetic and deserving farmers a sire to be used during a period of two years. This, he thought, would eliminate expense, and a useless waste of time and energy and encourage one of the more necessary and wholesome steps in the raising of profitable and sound stock.

Because of present conditions, the minister foresaw a very definite increase in pork production during the next few years. This he did not advise, but felt that because of the inevitable trend, steps should be taken to direct that increased production. In his opinion this would be best done by supplying farmers with breed sows of the fine bacon type at cost and at half transportation price. This would eventually mean that the right quality of bacon could be produced for home consumption and exportation with substantial remuneration for the farmer.

UNEMPLOYMENT INSURANCE PLAN WAITS ON CENSUS

Toronto, Ont.—The Dominion Government awaits the completion of the 1931 census before it will apply itself to the question of national unemployment insurance, Senator Robertson, Federal Minister of Labor, intimated in an address to the Ontario community welfare council.

Senator Robertson said from seven to ten of the questions to be asked of all citizens in the census next June will deal with employment and unemployment. It was hoped, he said, in this way to gain a complete picture of the situation at a normal season of the year than now.

Senator Robertson believed that with the end of Soviet Russia's attempt to disorganize the markets of the world, economic conditions would begin improving. "As soon as it is evident," he said, "that this latest attempt to Communize the world has failed, then almost overnight you will see a revival of trade, a restoration of confidence. With confidence restored, credit conditions will improve and more credit means more business, and more business means more employment."

The speaker gave a detailed account of the Federal Government's \$20,000,000 unemployment relief plan. So far, with the provinces and municipalities co-operating, there was \$46,000,000 worth of government municipal work under way or being started to relieve unemployment.

and \$23,000,000 worth more under way or being started by the railways. Hon. Dr. J. D. Monaghan, Minister of Labor and Public Works for Ontario, was most optimistic about the return of prosperity. "There will be a restoration next spring or summer," he said. "I am sure that the various governments on public works have improved the morale of the people. The province as a whole has greatly improved. The depression has lifted and we are looking forward to a restoration of better times."

Will Be Shipped To England

Alberta Breed Mare From Prince Of Wales Ranch Sold To Yorkshire

—Maa

Toronto, Ont.—Owned by the Prince of Wales, and born on his ranch at Felskirk, Alberta, a six-year-old Percheron mare and foal, now at the Royal Winter Fair, are going to make history in Canadian horse-dom. "Princeton Carman," winner of many ribbons in the Percheron class throughout the west, and her colt, "Princeton June," have been sold to Lord Middleton for an undisclosed sum and will sail Tuesday, Nov. 23, from Montreal for his farm at Malton, in Yorkshire, England. W. L. Carlyle, manager of the E.P. ranch said recently:

"Thousands of purchased horses have been shipped to Canada from England, to improve Canadian stock, but Mr. Carlyle believes that this is the first instance of blooded Canadian horses being sent to England, the home of fine Percherons."

Premiers Visit Edinburgh

Edinburgh, Scotland.—Three Empire prime ministers: Rt. Hon. R. B. Bennett, of Canada; Rt. Hon. James Scullin, of Australia, and Rt. Hon. G. S. Forbes, of New Zealand, spent a day in Edinburgh. After a visit to the Scottish National War Memorial in Edinburgh Castle, where each laid wreaths, they received the freedom of the city at Usher Hall.

Would Conscript High Incomes

Vancouver, B.C.—Conscription of all incomes in excess of \$50,000 a year, as a solution for the nation's unemployment problem was urged by delegates to the regular meeting of the Vancouver, B.C. Western and districts Trades and Labor Council, in a resolution addressed to the Federal and Provincial Governments.

Heavier Imports Of Salmon

London, England.—Imports of canned salmon from Canada during the first ten months of the year were higher than in 1929, while salmon imports from Russia declined heavily in the same period. Rt. Hon. William Graham, president of the Board of Trade, told the House of Commons.

West Is Optimistic

Ottawa, Ont.—Returning from a trip to the Pacific coast, Hon. Alfred Durnan, Minister of Marine, expressed sentiments of great confidence in the future of the west, particularly of British Columbia. The west was optimistic despite the present depression, he said.

NOTES AND COMMENTS

There is a by-law which calls for removal of snow from sidewalks. There are portions of sidewalk from which it has not been removed. These spots are dangerous. If a person should be injured by a broken limb the town would be liable for damages. Would it not be cheaper to pay for snow removal immediately following a storm than having to pay several hundred dollars damages? It is the rate payers as a whole who would have to pay.

American coal is still being sold in large quantities in Winnipeg. To meet the advantage which the Federal subvention gave to coal shipped from Alberta to Manitoba, United States coal companies have again cut the price. Despite all that may be said about national consciousness, it is but skin deep, and money consideration comes first with large coal users in Winnipeg. Even the Free Press of that city, which prates so much of developing a Canadian national sentiment, remains ominously silent when it comes to choosing between States and Canadian coal. Alberta mining companies must keep up the fight to sell coal in Manitoba, in the face of the determined effort by American companies, aided by their Winnipeg agents. Patriotism, national sentiment, call it what you like, is only skin deep in many instances.

Credit is due the teachers of music in the Pass towns for their efforts in instilling culture in young minds. Last week a recital was given in Blairmore which indicated the success attained by the teachers responsible. In the stress of trying to earn sufficient to pay living expenses, it means sacrifice and persistent effort to continue studies along cultural lines, for the necessity of providing for material things presses unceasingly. The teachers, the pupils and their parents are to be commended.

It is probable that the Pass mines will work three days a week for the remainder of the winter. It is also likely that the summer months will be quiet, as the C. P. R. will stop up during the next three or four months.

The towns dependent on the coal industry cannot develop to any extent on half time employment. It is necessary to find if some other avenue might be exploited whereby revenue may be obtained. The tourist business means much to any locality which has attractions and accommodation to offer. Coleman business men should co-operate in the effort to develop a provincial park at Crows Nest Lake. It would be visited by thousands of auto owners in the summer months, and that means business.

The preachers in Calgary have a field day every Sunday via the radio broadcasting stations. Each church has its set time, with the fireworks provided every Sunday afternoon by Bro. Eberhart, of the Prophetic Bible Institute. Some of the addresses are helpful, indicating deep thought on the part of the speakers. Others touch of the dramatic and emotional appeal, which instead of helping the mind to ponder on religious matters, remind one of the barker at the circus endeavoring to interest people by purely spectacular and superficial methods.

As a reminder of how close Christmas is, it is exactly four weeks from the date of this publication. There will be the usual buying which Christmas season always gives added incentive to, and local stores should see that Christmas wants are supplied as much as possible right here. Interest the Christmas shopper sufficiently early by appropriate suggestions and inducements to buy early, and thereby make shopping easier for buyer and seller. Give the customer reason to feel that local service is good service.

The provincial minister of highways is reported to have stated in Calgary that he considered the Crows Nest Pass was being well treated in the matter of keeping the highway cleared of snow. Admittedly so, but he ignores the necessity of keeping open the few miles to the inter-provincial boundary to keep this important link open. It would appear that the only way this can be kept open is for local bodies to hire the snow plow of the B. C. highways department and have it continue its work eastward beyond Crows Nest, the inter-provincial boundary limit. It is a really striking demonstration of incompetence to deal with a vital public need. Not even the courtesy of a reply is given officially to the public bodies requesting action in this matter.

A news story from Lethbridge states that former stock broker Solloway is said to be showing signs of worry, and that a specialist from Keith sanatorium had been called to make an examination. One can hardly believe that remorse is causing him to worry. The jail sentence he received strengthens the fact that there is a law for the rich and another for the poor.

Here and There

(645)
Radio came into play recently in maintaining the Royal Canadian Mounted Police tradition of "getting its man," when Mrs. Donald McIntosh, of Glasgow wrote C. P. R. headquarters in Montreal to help locate her son, Angus, after months of silence. The railway through J. J. Scully, general manager eastern lines, got in touch with W. W. Spaulding, superintendent commanding Saskatchewan district of the R.C.M.P., who in turn applied to radio sources. Angus was listening in at Saskatoon, got the message from home and at once communicated with his mother.

George M. Taverity and J. K. Christison, of Carberry, Manitoba, won the boys and girls swine club championship on Canadian Pacific Railway lines in the province at the annual competition recently held at Manitoba Agricultural College. They won the Manitoba Cup for their club for the second time, gold medals for themselves and qualified for the trip to the Royal Winter Fair at Toronto this month as guests of the railway.

A novel form of entertainment is being offered by the N.S.S. where passengers are being taken out on local sword-fishing crafts for which a small fee is charged. Many are availing themselves of this opportunity of seeing the huge fish harpooned from the deck of a boat. An instructor explains the method used in catching these monsters of the deep.

Farmers from all parts of Canada will again be competing in the International Livestock, Grain and Hay Show to be held at Chicago, November 29 to December 6. In the competitive class for hard spring wheat winner of which is acclaimed as the world's wheat king, Canada has won 16 times in the past 19 years and the province of Saskatchewan has won the crown on 11 occasions.

Capt. Eddie Collins, Mickey Cochrane and Cy Perkins of the world's champion Philadelphia Athletics, and Tris Speaker, world's champion player of former years, have been spending the first half of November in the New Brunswick woods, shooting deer, moose and bear and also adding wild goose and brant to their bags by a visit to Bathurst on the Gulf of St. Lawrence coast. Frederickton was the starting point for their hunting trips.

The championship of the 11th Canadian egg laying contest, just concluded at the Central Experimental Farm at Ottawa, goes to a pen of white leghorns entered by Richard Green of Farrington Park, Preston, England, while second place honors went to Mrs. W. J. Thompson of Birch Hills, Sask., with a pen of barred Plymouth rocks. Third place was taken by a pen of Rhode Island reds entered by the University of British Columbia. The best laying individual bird in the contest was a Rhode Island red, "No. 38" entered by Dan Russell of New Westminster, B.C. It made a score of 287.8 points for 249 eggs. The contest lasted as usual, 52 weeks.

Six international army officers' teams will compete at the Royal Winter Fair Horse Show to be held at Toronto, December 19-27. They will come from the United States, the Irish, Free State, Hungary, Sweden, Germany, and there will also be a Canadian team. Teams will consist of four officers each who will enter the lists for the much-prized International Officers' Team Challenge Trophy.

A forty-mile ski marathon from Lake Louise to Banff will be one of the big features of the Banff Winter Carnival which will open February 1st next. The run will cross turbulent mountain streams and will follow ascending and descending ridges of great height. "No smooth travelling in the last half," is the way skiing experts who have planned it, describe the event.

Fur farming in Canada is now established as a leading industry. The latest available figures show that the industry to-day represents a capital value of \$22,980,617, of which \$16,401,453 is invested in fur-bearing animals. Prince Edward Island is the leader in the industry, with Ontario and Quebec not far behind. Ten years ago total value of fur-bearing animals on fur farms in Canada was placed at \$4,723,105.

Showing of the Canadian Pacific Railway Company for the month of September, in which an increase of \$1,721,645 was shown in net earnings over the total for September of last year, in the face of an actual decrease in gross earnings, is a tribute to a management's ability to adapt itself to unfavorable conditions, according to a financial authority of Montreal.

The showing itself is not an indication of improved business, for gross earnings were only \$19,192,325 as against \$19,551,217 one year ago, a decline of \$358,891, but it is a favorable development for the company itself. What was done was to cut down operating expenses from \$14,540,597, shown in September one year ago to \$12,460,960 for September, 1930. Some indication of what retrenchment in overhead costs could accomplish was given in the August figures, when starting out with a decline in gross earnings of \$2,182,000, the company managed to show a net profit of \$1,100,000.

Life Assurance

a form of Property

LIFE assurance is as much a form of property as a house, a farm, a bond, or a savings account with these advantages—

- (1) Its present and future values are guaranteed.
- (2) It constantly appreciates in value.
- (3) Its values are always available in liquid form.
- (4) It is property purchased on a strictly one-price-to-all basis.

SCOUT NEWS

Come On Out/

Boy Scout Association Executive Elected

At a meeting held on Tuesday evening in The Journal office, the following were present and elected to the executive: Honorary president, O. E. S. Whiteside; Rev. A. S. Partington, B.A., president; Rev. Fr. E. F. Lehman, vice president; executive members H. C. McBurney, H. T. Halliwell, G. Pattinson, J. R. Hutton.

Mr. Whiteside has kindly placed at the disposal of the Scouts executive house next to the hospital to be used as a toy repair shop during the Christmas season.

A report of the banquet and film showing will be published next week.

Prizes Awarded to Dancers in Competitions

The dance on Tuesday organized by Mrs. Guerard attracted a large number, many who arrived late being unable to obtain admittance. The prime feature was the prize waltz competition, for which there were 26 entries. Five couples competed in the finals; four for Canadian glide waltz and one for old country waltzing. The couple were Mr. and Mrs. Caroe, and they were awarded the second prize. The silver trophies for Canadian glide were awarded to Mr. and Mrs. Atkinson. The third prize was competed for by Mr. Peltier dancing with Mrs. E. McDonald of Blairmore and R. Hill dancing with Mrs. G. Evans. So difficult was it to make a decision three from Coleman and one from Blairmore were called on to decide, and the third prize was awarded to Mr. Peltier and lady. The music was most enjoyable and a merry evening terminated at 2 a.m.

In Appreciation

I desire to tender my grateful thanks for the very large attendance at the dance on Tuesday night in the Oddfellows hall, to Mr. Mason and orchestra, to the many kind ladies who sent commodities for the refreshments, to those who helped in serving, to those who assisted in selling tickets and all others who in many ways made the evening a real success.—Mrs. A. E. Guerard. 11c

Old Country Mail

Parcels should be sent by Dec 1st to ensure delivery in time, also money orders. Overseas mail should be posted not later than Dec 5th. Mail your parcels early. If you require personal greeting cards order through The Journal for quick delivery.

Blodwen Lewis, five year old daughter of Mr. and Mrs. W. Lewis, is at present in the Shriners hospital, Winnipeg, and is getting along very nicely. Her parents accompanied her there a few weeks ago.

TEN DOLLARS REWARD

Will be paid to the party giving information leading to the discovery of party or parties who stole the combination locks from the lockers in the curling rink. The name of party giving information will not be disclosed.

Information must be given to the town office.—By order of the Management of Coleman Curling Rink Co. Ltd.

Why We Must Pay Cash For Credit

THERE was a time when prompt payment of bills meant little, when wholesalers allowed from two to six months' time and retailers could pass the accommodation on to their customers.

That time is gone—through no act of yours or ours—it is simply gone. The great cry today is "Cash." Retail buyers are no longer asked when they wish to pay; a minimum of 30 days is given in which payment MUST be made, or a heavy rate of interest paid for the extension of credit—in other words hard cash is paid for the convenience of credit. Long term credit buying, which some business houses feature today, is made possible by "a credit charge" proportionate with the term.

For the same reason newspapers are forced to charge more for subscriptions not paid in advance. The subscription price to The Journal is \$2.00 per year, paid in advance.

Keep Your Subscription Paid-in-Advance

Boy Scouts Toy Shop

The Boy Scouts will do their part in providing Christmas Cheer.

Through the kindness of friends, a building has been provided as a workshop. Old toys or dolls will be collected and repaired for free distribution. Those having old toys advise Rev. A. S. Partington, Scoutmaster Harold Turner, or The Journal office.

Theatre Matinee

will be held on

Monday, December 1st
at 4 p.m.

For Public School Children Only

Each child is asked to bring a TOY for the Scout Toy Shop as **ADMISSION**.
These toys will be repaired and distributed at Christmas.

Take Long Walks Fat Men are Told

How can you walk off your fat if you haven't any energy to do it? You can take off fat with Kruschen Salts if you will take every morning before breakfast, modify your diet and exercise regularly.

There are six different salts in Kruschen that your body organs must have if you are to enjoy good health. While you are losing fat you will be gaining in vigor, energy, vitality and power of endurance.

That means that soon you will be able to walk many miles without fatigue and enjoy every step you walk.

Drug Stores all over Canada sell Kruschen Salts, and a jar costs but 75 cents—it's a real blessing to fat people.

WORLD HAPPENINGS BRIEFLY TOLD

Francis Watts, the authority on tropical agriculture, died recently at Port of Spain, Trinidad, aged 71.

The port of Vancouver, I believe, is destined to become the greatest in the world," said the Minister of Marine, Hon. Alfred Durneau, in an address at Vancouver.

Dr. Charles F. Colter, D.D.S., who was largely instrumental in forming the Canadian Army Dental Corps early in the war, died in Toronto, in his 64th year.

When the Prince of Wales visits South America next year to open the British Trade Exhibition at Buenos Aires, he plans some extensive sight-seeing.

There were no legal barriers to the building in London, despite a rumor from London to the contrary, company officials stated.

Another great European war in 1932, resulting in the annihilation of Germany, is predicted by General Ludendorff in a pamphlet just published.

The trade delegation of the Canadian Chambers of Commerce was entertained in Shanghai at luncheon by the Pan-Pacific Association before sailing for Hong Kong.

The preparatory disarmament commission adopted the first article of the naval armament section of the draft convention providing for total limitation and reduction of tonnage.

The British dirigible R-34, which crossed from Scotland to Mineola, N.Y., in 1931, requiring 108 hours for the journey, 60 hours longer than the land-to-land crossing of the R-100 this year.

Premier MacDonald's official residence, No. 10 Downing Street, had a window smashed with a brick. A man whose name was given as Louis Colville Miller, 60, was arrested and charged with causing willful damage.

Rudiments Of Flying Taught In London, England, From Table-Top

A table-top teacher for the rudiments of flying is being used in London, England, to teach student fliers, don, England, to teach student fliers. The "pilot" is provided with a real joystick, a rudder bar and throttle, fitted under the table at which he sits. On the table at his eye level is a large model airplane and the rear end of the case is open so that the pilot will feel a wind up to 70 miles an hour. All movements of the controls at the desk are recorded by the enclosed 'disk'.

Silver Fox Breeding

Canada was the first to develop the breeding of silver foxes in captivity and she has so maintained her position in this respect that she is regarded as a world-leader by all other countries whose representatives periodically visit the Dominion to secure breeding stock and in search of knowledge and advice in the conduct of similar undertakings.

Personality Suffers In Mechanical Age

Toronto Minister Says Victorian Era Not Altogether To Be Pitted

The rise in general intellectual development in the modern age did not entirely compensate for the loss of the dominating personalities of the Victorian era, Rev. G. Stanley Russell, pastor of Deer Park United Church, Toronto, told members of the Toronto Public School Teachers' Association at its annual meeting. The loss of individuality and personality, he said, was one of the by-products of the enormous increase in mechanical inventions.

The art of hand-writing, he said, was passing because of the prevalence of the typewriter. People "hanged" letters to one another on the typewriter, but the day of long hand-written personal epistles had passed its zenith. Because of the invention of the typewriter, people were laying by the use of their hands in writing and because of the advent of the motor car, they were losing their legs. The chance for close observation of nature, and one benefit to health as well, were being sacrificed when people gave up walking.

The glory and personality had likewise gone out of war. Military training, he stated, had real relationship to warfare today because war had become merely a thing of mechanical and scientific devices.

Much sympathy, he felt, was now being wasted on people who lived in the reign of Victoria. It was a very happy period, he said, despite the jeers which a certain faction of the "moderns" hurled at it.

FRONT OF APRON AND RUFFLE CUT IN ONE

It's simple as A, B, C, to make! You'll like this dainty apron immensely. It's so attractive to slip on over one's best frock. It is gay chintz that is useful as well. It offers lovely protection to the front of the frock. Aren't you surprised to learn that the front of the apron and ruffle cut in one piece? The belt is in two sections and is attached at sides and fastens at the back with button.

The top of the apron is joined to a yoke with U-shaped neck. Made in a jiffy! You bet! For the medium size, 1½ yards of 10-inch material is sufficient. Style No. C-892 is designed in sizes small, medium and large. Red and white dimity prints, dotted swiss in pastel shade and blocked tissue gingham in yellow and white are dainty suggestions. Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

Reporter Plans Yukon Trip

Newsman Man From Paris Will Write About Frontier Life In Canada

Sent by his newspaper, "Petit Parisien," to gather data on the north-western parts of Canada, a young Parisian reporter, Aloucherie, passed through Montreal recently on his way to Yukon and Alaska where he intends studying the romantic and impressive surroundings that inspired Jack London's celebrated novels.

A year ago Mr. Aloucherie made a trip out west to investigate immigration problems, but, this time, his inquiry will cover the life of the mounted police, the prospector, the Eskimo and the missionary. His trip, which has Vancouver as a starting point will extend as far as Ketchikan, Dawson and possibly Nome. Mr. Aloucherie intends retracing the path of the '98 gold rush.

Similar work, on previous occasions has taken the young French reporter to Morocco and Syria, where he furnished the "Petit Parisien" with magazine material necessitated by intense competition now existing between the feature sections of Parisian newspapers.

New Job For Prince

Sir Philip Gibbs Thinks He Could Lead Emigrant Army

Sir Philip Gibbs, famous war correspondent and author, has submitted to the responsible authorities proposals for a novel overseas settlement crusade led by the Prince of Wales. The first contingent would be of one hundred thousand of the young men with their womenfolk, who would form new colonies and organized on the same lines as the expeditionary force to France with general headquarters staffed by administrators and experts including engineers, agriculturists and social organizers.

"If the Prince went into the distressed areas saying 'follow me,' the young manhood would follow him in the great adventure if he promised to be their leader to go out with them and visit them from time to time. The Prince alone could break down the political opposition of the Dominions and rally them to a new idea of service on behalf of the motherland," says Sir Philip.

Long Cruise In Fishing Boat

Adventure Reaches Pacific Coast After Crossing Atlantic and Sailing Through Panama

E. W. Wilson, with a crew of three, has arrived in Nanaimo on the fish-trawler, "Lady Royal," a 25-ton fishing boat, after crossing the Atlantic, sailing through the Panama Canal and up the Pacific Coast.

The adventurous trip was at times full of hardships and danger. Once more than 600 miles out, with provisions and water ran low. For two weeks the crew were reduced to one cupful of water a day. By steering into the passenger lanes, the little sloop was eventually sighted by the Matson liner, "Wilhelmina," which supplied food and other necessities.

Will Build Produce Market

Twenty market gardeners in the Winnipeg region are planning the construction of an all-year produce market in Winnipeg, to be conducted by the growers, each of whom will occupy a stall. The cost of the building will run to about \$35,000.

Milk Pool To Expand

The Saskatchewan Milk Pool, whose corporate name is "The Saskatchewan Dairy Co-operative Marketing Association Limited," has decided to expand and go into the dairy business. It is now proceeding to get into touch with those eligible for membership.

ZACHARIAH THE PUBLICAN — A BUSINESS MAN CONVERTED

Golden Text: "The Son of Man came to seek and to save that which was lost." Luke 19:10.
Lesson: Luke 19:1-10.
Devotional Reading: Psalm 135.

Explanations and Comments

The Resourceful Onlooker, verses 1-4.—When Jesus was passing through Jericho, a great crowd assembled to see Him. The rich Commissioner of Taxes, or chief publican, Zachariah by name, being short of stature, realized that he would be unable to see Him. And no doubt the hostile crowd, elbowing off the hated tax collector. He was, however, a determined and resourceful man, and ran on ahead of the crowd and climbed up into a sycamore tree by the side of the road by which Jesus was to pass.

Zachariah ran before, we are told. Sometimes a man reveals the secret of his strength in some apparently insignificant deed. The forcefulness of the will of Zachariah is not especially in the fact that he climbed the tree, but in the fact that he ran before. He anticipated Jesus. He saw which way Jesus was to pass, and made preparations for the best view. The Self-Invited Guest, verses 5-7.—Jesus came to Jericho, and the sycamore tree He looked up and saw Zachariah, and at once called him by name, and said unto him "Make haste, and come down; for today I must abide at thy house." His "must" was that of a shepherd who would care for a lost sheep. When Zachariah dropped down from the branches with great joy and haste, and came down to meet Jesus, the people began to murmur saying, "He is gone in to lodge with a man that is a sinner."

The Conversion Of A Business Man, verses 8-10.—"Think of Zachariah on the morning of that day. He was chief among the publicans and he was rich. Full of guile and gain and entirely impudent. In the far North the quicksilver freezes in the thermometer, which of course causes the register, and the thermometer is used, but let the thermometer rise, and the quicksilver becomes at once nimble and useful. That morning in the white, fierce light of embodied righteousness that the quicksilver thawed, conscience acted, and the publican was converted" (W. L. Watkinson). Not a word had been said about his speculations; yet in the presence of the righteous Lord he voluntarily and promptly made a clean breast of it.

"Kre God forgive the guilt. Make man some restitution." —Browning

Zachariah used the present tense as a vivid way of asserting his future course of action. "Behold, Lord," he said, "the half of my goods I give to the poor; and if I have wrongfully kept anything of any man, I restore fourfold."

C.P.R. Hotel For London

Arrangements Have Been Made For Securing Suitable Site

Announcement was made by E. W. Beatty, chairman and president of the Canadian Pacific Railway Company, of the acquisition of a site for the hotel proposed to be erected by the company in London, England. Mr. Beatty's statement follows:

After protracted negotiations, the company has succeeded in securing a hotel site in London, facing Berkeley Square and Bruton Street. The block is a substantial one, containing approximately 77,000 square feet in area. Negotiations for its acquisition are just about completed, and when possession is secured, which will not, however, be for some months yet, the work of construction will commence. In the interim, the company's engineers and architects will proceed with the preparation of preliminary plans. The hotel, when completed, will contain a minimum of six to seven hundred rooms."

Winter Service Arranged

Mail Will Be Carried Into North By Air More Frequently

Arrangements for an air mail service into the Mackenzie River district through the winter of 1930-31 have been made by the Post Office Department, according to an announcement in the November supplement to the Canada Official Postal Guide.

The air mail service will supersede all previous mail services to this area and will effect more frequent and speedy communication than has been possible in the past. The frequency of delivery will be increased to once a week, and the time will be reduced to less than half.

The mail service between Herschel Island, Y.T., and Alkavik, N.W.T., will be performed by police patrol. Rae will be served irregularly by police patrol from Fort Resolution.

Automobiles Entering Canada

In 1910 the number of touring automobiles entering Canada was 238,000. In ten years (1919) this number grew to 4,609,000.

It was once supposed that the northern lights of Arctic regions could be smelted as well as seen.

The First Pipeful Tells the Story Turret Pipe Tobacco

The first pipeful tells the story better than a full page advertisement — Here is a cool, fragrant smoke that lasts and lasts. All the smoothness and flavor of the finest tobaccos properly aged and carefully blended.

This new crown top tin is a wonderful improvement in perfect smoking condition; it is so handy, it can be put to many uses.

May Not Be Practical

Value Of Reading Machine Yet To Be Proved

A new invention from Berlin is a "reading machine" which will project printed pages upon a screen, enabling either a family or an entire audience to read together. The projector greatly enlarges the picture, permitting several pages of normal size reading to be reproduced from the size of a postal card. Whether this invention will be of any practical value remains to be demonstrated. The inventor declares it will revolutionize the publishing of books, since one of these small films can take the place of several books.

DO YOU SUFFER WITH HEADACHE?

So easy to get quick relief and prevent an attack in the future. Avoid bromides and dope. They relieve quickly but affect the heart and are very dangerous. They are depressing and only give temporary relief, the cause of the headache still remains within. The safe and harmless way. First correct the cause, sweeten the sour and acid stomach, relieve the intestines of the decayed and poisonous food matter, gently stimulate the liver, start the bile flowing and the bowels pass the bile waste matter which causes your headache. Try Carter's Little Liver Pills. Druggists 25c red pkg.

Encourage Seed Cleaning

Saskatchewan Municipalities Take Advantage Of Government

Six Saskatchewan rural municipalities were provided with combination seed cleaning outfits, under arrangement with the Provincial and Federal Governments during this, the first year of operation of the scheme, according to Hon. W. C. Buckle, Minister of Agriculture for Saskatchewan. Under the plan the cost of the machines is shared by the two governments; the municipalities supplying the engine, the housing and transportation equipment.

There has been no execution for murder in Denmark since 1892.

TOO MUCH ACID may be causing those frequent headaches

When there's too much acid in your stomach, you must force yourself to work, and even pleasures are too great an effort. Appetite lags; the digestion is poor; the bowels are constipated. Laboratory tests show an acid condition is due to errors in our modern diet. But you need not wait to diet your way out of the trouble! Take a tablespoonful of Phillips' Milk of Magnesia.

This will neutralize the excess acid instantly; make you feel like a new person in just a few moments. Take a little whenever heartburn, sick headaches, nausea, flatulence, indigestion or biliousness show the digestive system is becoming too acid. Whenever you are taking cold or feel sluggish, weak, constipated. Phillips' Milk of Magnesia has a gentle laxative action.

Delightful to take. Endorsed by physicians for 50 years and prescribed everywhere for men, women and children. The genuine is always a liquid; it cannot be made in tablet form. It always bears the name Phillips' for your protection.

For Trouble due to Acid Indigestion, Sour Stomach, Constipation, Biliousness, Heartburn, Nausea, Flatulence, Indigestion, etc., take Phillips' Milk of Magnesia.

ENO'S
"FRUIT SALT"Mothers! Don't Risk
Their Health With
Violent Purgatives

Constipation is one of childhood's greatest enemies. Unless the intestinal system is kept clear and clean its health is almost sure to follow.

But severe acting laxatives are dangerous. The bodily system of child or adult is not meant to withstand the unnatural, forcing action caused by ordinary, cheap cathartics.

ENO'S "Fruit Salt" in a glass of water, every morning is the safest, surest and most pleasant way to inner cleanliness and perfect health.

arison, and was watching her husband with an intensity not quite natural in a wife of four years standing. The blue figure in the adjoining garden was also watching; though Nick was serenely unconscious of an audience. He came nearer, grumbled, and said: "So this is how you take a holiday, Mr. Maxwell—calling on my wife? Mind if I kiss her? It's a sort of habit I've acquired."

"A good habit," said John Maxwell quietly. "Don't stop for me!" and the fact did not escape him that as Nick obeyed, Mrs. Halliday, shrugging as if disgusted at this display of family affection, turned away.

"Damn her!" said John Maxwell below his breath.

He said it again when he was in his private sanctum at the bank that afternoon. Nick had insisted that he stay to dinner, and as they started back to work, Mrs. Halliday appeared on her front porch. She didn't speak, but her smile was so intriguing that Nick stopped; exchanged a few words about the garden; presented Mr. Maxwell as his "chief," and, at a subtly expressed hint from the lady, promised to stop over after supper and survey her peony plants.

"I've been hard at work in the garden all the morning," she apologized prettily, with a glance at her spotless linen gown. "If you'll forgive my appearance now, I'll promise to look less disreputable this evening."

"You look," Nick instantly replied, "like a part of the garden itself," which bit of gallantry brought a sudden, satisfied light to the woman's eyes.

"The walk to the bank was, on the whole, silent. It was as they turned into Main Street that Nick said, as if it were something he'd been considering: "Queer, isn't it, how some women can work in a garden, or round a house, and look so confidently at their work?"

John Maxwell snorted angrily.

"Nest! My dear boy, that woman never set out a plant in her whole life! She stands about looking pretty, and ordering some man to do the dirty work. Take care, Nick, that she doesn't take to ordering you!"

Nick stared at the frowning visage of his old friend; then laughed and said: "To do her dirty work?"

"There are all kinds of dirty work, my boy," answered John Maxwell, so soberly that Nick exclaimed: "Good thunder! Mr. Maxwell, you don't think—"

"I don't think anything," broke in the older man hastily, already fearing that his indigestion might put ideas into Nick's head. "I don't think any thing except that you'd better take care of Gay. She's got hollows in her cheeks."

They had reached the bank, and without another word its president marched into his private room and slammed the door.

"Damn her!" he said for the second time that day.

Yet, when he cooled off and thought it over, he realized that he had no grounds whatever for his peevishness. As he had said to Gay, Nick was still a boy, though he had shouldered a man's responsibilities. Why shouldn't he enjoy talking with a pretty woman? John Maxwell smiled at the thought that he, himself, was not adverse to doing so! Should he blame Nick because Gay seemed tired and listless? Most young mothers were, being unused to broken sleep and sudden loss of freedom. He re-

membered when Mary had looked like that—and his two daughters as well. (To Be Continued)

Maybe... you've never
thought of this

Next time you want soft water in a hurry try Gillett's Lye. Dissolve one tablespoonful in a gallon of cold water* and use this solution for cleaning sinks, refrigerators, floors, tiling, etc.

For washing dishes, dissolve one tablespoonful of Gillett's Lye in one quart of cold water. Keep in a labelled bottle and put a few drops in the dishpan whenever you wash up.

*Lye should never be dissolved in hot water.

CHAPTER V.—Continued.

"He moved on slowly, reaching Nick's gate and looking up at its peeling paint. There was no sign of Gay. In Bakerville most men come home at noon, and at eleven-thirty their wives are in the kitchen. With the unerring instinct of one born and raised in the community, John Maxwell made his way toward the side door.

He saw then, that Gay was in the orchard, hanging some diminutive pink garments on the line. Her task done she glanced across at her neighbor's garden, where, still clad in crisp blue linen, Mrs. Halliday was superintending the setting-out of plants. Glancing up, she caught Gay's eye, and bowed. There was nothing friendly in the act—nothing akin to the greeting she had tossed across the square to Nick, a few hours earlier. John Maxwell's grey eyes hardened. Then, as Gay caught sight of him, he smiled.

"Mr. Maxwell! What brings you out this morning?"

"Only the spring. Couldn't seem to settle down to work, and Nick gave me leave to take a holiday."

Gay laughed and said: "Will you stay to dinner with us?"

"Not today. Guess you have enough to do, cooking for your own three boys. Nick's still a boy to me, you know, if he has been married long enough to acquire a family. Do you like your new neighbors, Gay?"

"They had reached the porch, and the girl sank down wearily, glancing at the pocket of her dress, which was held at one corner by a safety pin.

"I hope you don't think I use pins instead of needles for my mending!" Her glance strayed to the trim blue

figure across the hedge, and her color rose. "It's Sonny does it. He can just reach my pockets and he will pull at them. Sometimes he tears them when I can't stop to mend."

She was silent for a minute before she said, in answer to his question: "You asked about the holidays? I hardly know them. Nick called one night when I was laid up with a headache. He says they're very pleasant. She's an artist, and they're fixing the house beautifully. It makes me crazy to fix ours, but everything takes so much money. There's Sonny calling. He's just waked up, but baby's sleeping. Do wait and see him, Mr. Maxwell."

"Yes, I'll wait. I want to poke round your panny bed. Most all ours got winter-killed this year."

But when Gay had gone John Maxwell didn't move toward the pusses. He sat on the steps, watching the blue-clad figure opposite. The flush that had mounted to Gay's cheeks as she glanced at her new neighbor, had not escaped him; nor had the tired lines beneath her eyes.

He wondered if it were only the children who had caused Gay's lack of sleep. Was it possible that Nick, the steadiest fellow in the whole world, was making a fool of himself over another woman? Stranger things happened every day, and Nick was only a boy—a boy who had never quite had his fling.

John Maxwell understood. He himself had married at twenty-one. He remembered a time some four years later, after the advent of the second baby, when life had seemed a good deal of a treadmill. But there had always been Mary. Never for a moment had he looked at anybody else.

Sturdy Nick, "It's my big boy, Mr. Maxwell!" Gay stood in the doorway, Sonny, fresh and sweet in a pink romper, in her arms. For a moment the tired lines had left her eyes, and only the pride of motherhood was there.

Maxwell, many times a grandfather, thought he had never seen a sweeter picture. He stretched out his arms, and with a delighted cry the boy went to him.

"He wouldn't do that with every one," said Gay. "It's rather shy."

"I think he remembers my last visit, as well as my watch charm that always fascinates the youngsters."

The caller had seated himself upon the steps again, and given the boy his watch. Sonny stared at it a moment before, then held it to his ear in a way that made them laugh.

"He looks more like his daddy than he did, Gay."

"I've noticed that. I love a boy to look like his father. It's strange, Mr. Maxwell, but Nick wanted a little girl. I thought a man always wanted a son; and Nick's such a man's man, too. But I honestly think he was disappointed, especially when the second baby wasn't a 'little sister'; though he wouldn't change either of them now," she added, smiling.

"Daddy?" asked the child, looking up questioningly at his mother.

"Nearly time for him," Gay answered, and smiled tenderly. "Daddy's the first word he said, Mr. Maxwell. I remember feeling the least bit hurt! And Nick's such a wonderful playmate that he adores him."

She stopped because the boy had uttered a delighted squeal. He wiggled away from John Maxwell's knee, while the watch, forgotten, hung limply by its chain. Nick was coming! With swift, unsteady feet the child ran to him; and with a sense of genuine relief the president of the First National Bank saw that his paying teller had no eyes for the lady across the hedge. He stooped with outstretched arms, and lifting his small son high, kissed the top of his bright head—hugged him a moment rapturously, and settled him on his shoulder as he came forward.

"A pretty sight, that," said John Maxwell softly.

But Gay did not speak. She had

"Implacable" May Be Kept In Repair
If Plans Are Successful

After a century of service in the Royal Navy, "The Implacable," some 20 years ago, was condemned to be sold. She is the last of the ships present at Trafalgar now actually afloat.

Wheatley Cobb persuaded the Admiralty to lend him the ship, and she was moved to Palmyra and maintained at his expense. For the last three summers she has been used as a holiday training ship. Efforts are now being made by naval, military and civil leaders to keep "The Implacable" in repair and provide for its maintenance.

Guard the Baby
Against Colds

To guard the baby against colds nothing can equal Baby's Own Tablets. The Tablets are a mild laxative that will keep the little one's stomach and bowels working regularly. It is a recognized fact that where the stomach and bowels are in good order that colds will not exist; that the health of the little one will be good, and that he will thrive and be happy and good-natured. The Tablets are sold by all druggists or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Income Tax Collection Record

Record Breaking Mark Is Set By Income Tax Collections

A new all time record for income tax collections has been set since April 1, 1935, up to the present, \$60,000,000 having been deposited with the Federal treasury in that period by Canada's taxpayers. According to announcement at the Department of National Revenue, this total is approximately \$2,300,000 ahead of the like period last year.

The record-breaking mark set by the income tax collections is interpreted in government circles as indicating business conditions in the Dominion are favorable. Money, at least, cannot be extremely scarce with the taxpayers paying up so promptly.

Other financial returns for the period under review are not, however, so favorable. The customs revenues have dropped \$30,000,000, while excise revenues are down \$15,000,000. The drop in the latter is attributed largely to the prohibition of liquor exports to the United States.

New Survey Ships For Canada

Construction at an early date of two hydrographic survey vessels, one for use out of Victoria on the Pacific Coast, and the other for the St. Lawrence, is under consideration by the Dominion Government, stated Hon. Alfred Durandau, Minister of Marine, who was in Victoria on an official visit of inspection.

Certain morbid conditions must exist in the stomach and intestines to encourage worms, and they will exist as long as these morbid conditions permit them to. To be rid of them and spare the child suffering, use Miller's Worm Powders. They will correct the digestive irregularities by destroying the worms, conditions favorable to worms will disappear, and the child will have no more suffering from that cause.

Dice used by Egyptians in Queen Cleopatra's time are exhibited at the Field Museum in Chicago.

For Dry Skin—Minard's Linalment

Afraid Of The Truth

Impossible To Get Uncensored News From Russia

Complaints are sometimes made that so many British newspapers, including the London Times, do not maintain accredited correspondents in Moscow. But in Russia today there is no place for a responsible correspondent of an independent newspaper.

When the Times send a correspondent to Russia it will be to supply its readers with honest and unbiased information, and such information can clearly be neither gathered nor telegraphed by a correspondent working under an arbitrary system of espionage. There is no discrimination in this matter, as is sometimes supposed, between Russia and the rest of the world. If similar conditions were ever to prevail in Italy, for instance, or in Turkey, the correspondent of the Times would instantly be withdrawn, as correspondents have sometimes been withdrawn from foreign countries in the past. It is not the least significant indictment of the present regime in Russia that its leaders are afraid to let the world know the truth—London Times.

China To Have Auto Factory

Establishment of an automobile factory in China, involving expenditure of several million dollars, is being planned by a Shantung Province millionaire in conjunction with a syndicate of Germans. It will produce an automobile patterned after prominent German makes. It will be located at Taiyuan, capital of Shansi.

Little Helps For This Week

"Whatsoever a man soweth, that shall he also reap."—Galatians vi. 7.

God will not seek thy race, Nor will He ask thy birth; Alone He will demand of thee, What hast thou done on earth?

—Persian.

And they who showed the light, shall reap

The golden sheaves of morning.

—James Russell Lowell.

The present life is the seed-plot of the future state, and the harvest which we reap in eternity is in some character and quality as that which now we sow. Every thought we think, every word we speak, every action we perform, every opportunity of service neglected or improved, is a seed sown by us, the fruit of which shall multiply either untold miseries or myriad blessings in the eternity into which we go.

—William M. Taylor.

For treatment of eaked bags in cows, or garget, use Douglas' Egyptian Liniment. It's the quick, sure remedy. Saves time and expense. Prevents blemished stock.

Canada's Major Power Systems
Canada has eighteen "large" hydro-electric power systems, such systems being defined as those with an annual output of 100,000 kilowatt-hours or more.

If everyone ate his food uncooked, says a European scientist, the normal span of life would be 140 years instead of 70.

FIRST RATE HOTELS or POOR STOPPING PLACES

Under the present Liquor Act of Alberta there is the closest supervision of all licensed hotels and a plan of continued improvement of the operation of Hotels is possible only under the Act as it now stands.

The Commissioner says who shall run the licensed hotels and the Liquor Board inspectors exercise the closest supervision, demanding as the licensee's funds permit, better equipment and better service to the public.

What a difference when compared with Prohibition days! No supervision, poor furnishings, poor table. No control whatsoever.

NOW IT'S ALL CHANGED

DO NOT SIGN THE PROHIBITION PETITION. IT MEANS CLOSING CLUBS AS WELL AS BEER ROOMS

Leave the Act alone. We don't want the bootlegger back again.

Chain Stores vs. Independent Stores

(By G. F. Bouchat)

Quite often I have been asked if I am opposed to progress. If I am an enemy of big businesses. In reality I have always most emphatically answered in the negative.

It has never been my purpose to attempt to thwart the same economical distribution of commodities by opposing any honest system of reduction of unnecessary overhead expenses in merchandising. I realize that all such burdens are passed on down to the ultimate consumer.

Nether am I opposed to the local independent merchant, who in the form of an agreement with, wholesalers has chosen to confine his purchases to them, and thereby be granted the privilege of operating under a chain store name. Such merchants take an active part in the development of a community and deserve support.

What I am opposed to, is the large mail order houses who thrive at the expense of your communities. The large chain stores which are in the hands of a small group of Wall Street financiers, who have no genuine interest in your towns and villages, who are not citizens of your communities, who pay little or no taxes in your localities, and who do not help to build your schools, your churches, your streets, your sidewalks, roads, etc.

Only recently I had the privilege of examining the annual report of a large foreign owned chain store for 1929. They claim \$37,000,000.00 of capital and surplus. This business was started in 1914 by a superannuated Bayview preacher, and sagebrush homesteader in a little town in the state of Idaho on \$500.00 borrowed capital. From this very modest borrowed investment in the short span of sixteen years they now own over 4000 stores in the United States alone, and are rapidly invading Canada.

What plunder there must be in swindling the public, is evident in this concrete proof. How did they get it?

If I were to relate all evidence that I have been able to gather against them there would not be much space left in this paper for anything else. Through their methods of short weight, short change, and counterfeiting products put up in bulk packages they have been successful in extorting millions of dollars from our neighbors to the south of our country.

(Continued Next Week)

Capt. W. Beebe Honored

(Continued from Page One) ritory extended from Banff to Calgary and east, north to Red Deer and south to the international line. In those days it was no light task for a grand lodge officer to pay his visits, for long journeys with horses had to be undertaken to carry out the duties.

In closing the proceedings Wor. Bro. Harper referred to the large number of visitors present from Coleman, Hillcrest, Lethbridge and Calgary, the attendance being almost as good as a district meeting

Auction Sale of Timber

Crowmest Forest
Timber Sale No. 202

The right to cut certain timber on the following lands will be offered at public auction at the office of Forest Ranger Boulton, of Coleman, Alberta, at 2 o'clock p.m. on Wednesday, December 10th, 1930.

"A block of merchantable timber, sawlogs and props located in Sections 4, 6, 7 and 8, Township 9, Range 4, West of the 5th Meridian."

On these lands there is estimated to be 500,000 feet board measure of logs and 4,000,000 lineal feet of props, suitable for the manufacture of lumber and mine props. The sale will be offered subject to an upset price of \$1.50 per thousand feet board measure for sawlogs and one quarter cent per lineal foot for mine props. The purchaser will be allowed until May 1st, 1931, to cut and remove all timber covered by the conditions of this sale. Each bidder will be required to deposit with the officer conducting the sale the sum of \$500.00 in cash, bank draft, or accepted cheque made payable to the Provincial Forester before being allowed to bid. Agents will be required to file letters of authorization from their principals before bidding.

The deposits of the unsuccessful bidders will be returned to them at the conclusion of the sale and that of the purchaser held as a guarantee deposit to be forfeited in case of failure to comply with the conditions of the Forest Reserve Regulations.

Full particulars may be obtained from the Forest Supervisor at Pincher Creek, Alberta, or the Provincial Forester, Land Titles Building, Edmonton.

T. F. BLEGEN,
Provincial Forester.
Edmonton, Alberta,
November 12th, 1930.
